Dan Sewall  
Ecology & Environment, Inc.  
111 W. Jackson Blvd.  
Chicago, IL 60604

Dear Dan:

As we are closing the file on the contractual arrangements of the Sauget project we are finishing the language on the new multi-site professional services agreement and looking forward to continuing our working relationship with E&E for the years to come. We certainly feel that projects such as the Sauget Site's Investigation and Phase 1 and 2 of the LaSalle Electrical Utilities PCB Abatement Project have provided both your firm and the IEPA with a working forum in which to become more familiar with each other. I believe that our relationship has been mutually profitable in the past and I certainly hope that course is continued. I know that you, Dan have been personally responsible for the success of the Sauget Project Investigation and I feel you are a fine ambassador of Ecology & Environment, Inc. The job you and E&E have done is appreciated.

The Sauget Sites Investigation project has been completed with the publication of E&E's document in May, 1988. We have hesitated to close the file out on this project due to the potential of a public meeting in Cahokia, Illinois. IEPA has discussed through the mailing of fact sheets and making inquiries, that a meeting is not needed. Therefore, with this notification, I would like E&E to prepare the entire working file in your office's possession for transferral to Illinois EPA headquarters office in Springfield. Please deliver the file to this office and to my possession at the earliest possible time of your convenience. There will be a letter generated after the transfer to record the event and complete the contractual agreement initiated in 1985.

Sincerely,

  
Jeff Larson, Project Manager  
Federal Site Management Unit  
Remedial Project Management Section  
Division of Land Pollution Control
